## Opportunities Represented at GMCC Business Expo

The Greater Madison Chamber of Commerce (GMCC) hosted its annual Business Expo at the Alliant Energy Exhibition Hall this spring and for the first time since the doors opened in Madison; Opportunities, Inc. was represented at the expo by members of the Sales team. Being new members of the Greater Madison Chamber, the sales team saw this expo as a great opportunity to introduce the company to the business community. Another goal the team was hoping to accomplish by attending the expo was to expand the awareness of the Opportunities Packaging and Assembly operations and mission in the greater Madison area.

The sales team found the expo to be a very successful way to get the word out about Opportunities.
