## Capn's Steakhouse and Saloon

Even though Capn's Steakhouse and Saloon in Fort Atkinson just opened their doors in December 2009, the owners, Mike and Randy, have already teamed up with Opportunities and gave three consumers a work experience in the kitchen area in their newly opened restaurant. All three workers were hired on by Capn's after their work experience ended. Two more consumers have since participated in work experiences that lead to the same positive result- becoming a permanent employee of Capn's! The staff at Capn's has been very flexible in the creation of schedules and job duties of those individuals hired on and also have maintained a high level of communication with our training specialists throughout the entire experience. We appreciate the partnership of Capn's Steakhouse and Saloon and look forward to continue working with them in the future!
