“Golden Opportunity” for Adult Day Services!

Consumers from Adult Day Services (ADS) at Opportunities, Inc. have started to volunteer twice a month at the Golden Living Center, a nursing home located in Fort Atkinson. Adult Day Services promote life enrichment and community engagement options for individuals with disabilities. Program participants have been volunteering at the Golden Living Center for several months now, interacting with the residents through various activities. Games like Yahtzee and BINGO are popular choices for the group, while others prefer to exercise together. Both the consumers and the residents of the nursing home take pleasure in being involved in these organized events and getting to know one another. This life sharing activity provides a wonderful exchange of conversation and social opportunity for all!
