

## **A “Lot” is happening with the Opportunities Building Advancement!**

Opportunities, Inc. is excited to announce the new parking lot opening on August 2, 2010. Consumers and staff members joined in the ribbon cutting ceremony to celebrate the new space.

It is designated for both employee and visitor parking. In addition, there will be a retention pond and landscaping to accentuate the space and ensure environmental responsibility.

This addition to the Opportunities, Inc. facility and grounds is part of the remodel and renovation project that was initiated this past spring and will continue through fall of 2011.
