

TO: Participants and Families
FROM: Barbara LeDuc, President/CEO
SUBJECT: Coronavirus Update/Protocol – Mission Services
DATE: March 16, 2020

To our valued Participants and Families,

The constant and ever-changing news about the Coronavirus is at the forefront of everyone's thoughts right now. There is global concern as exposure broadens and known cases increase, however, at this time, the total impact of this pandemic is unknown.

Opportunities, Inc. has implemented corporate-wide, sustainable protocols and continues to monitor the situation and guidance from the CDC and other state and local health departments to ensure the health and well-being of our **Employees, Participants, Families** and **Partners**. Our responses and actions are fluid as we gain more knowledge and new best practices are identified.

At this time, Opportunities, Inc. will continue to provide the high-level of services you expect, such as Adult Day (Connections) and Pre-vocational Services, Community Integrated Employment, Guardianship, etc., however, you know your loved one best, if you feel it's best for them to stay home, we understand and respect that decision. Please be sure to let your Case Manager know.

We appreciate your support of Opportunities, Inc.!

Sincerely,

Barbara LeDuc
